

ROWAN-VIRTUA
School of
Osteopathic Medicine

3-DAY CONTINUING MEDICAL EDUCATION CONFERENCE

NOVEMBER 19 - 21, 2026

**KALAHARI RESORT &
CONVENTION CENTER**
Pocono Manor, PA

Up to 15 AOA Category 1-A CME Credits
Up to 15 AMA PRA Category 1 CME Credits™

OVERVIEW

Rowan-Virtua School of Osteopathic Medicine is dedicated to refining and enhancing knowledge to manage the changing needs of the health care system. These evidence-based lectures are structured to augment the health care professional's expertise with current guidelines, materials and recommendations, as well as up-to-date advances in medical treatment on specific topics.

LEARNING OBJECTIVES

As a result of participation in this activity, members of the interprofessional health care team will improve their ability to:

- Identify the key musculoskeletal finds and somatic dysfunctions in pregnant patients and those with pelvic disorders
- Deliver recommendations for navigating the environment of preventive screening and immunizations in the current changing geopolitical healthcare and health policy landscape
- Review initial lab workup for perimenopause
- Implement a comprehensive, interprofessional controlled substance management plan integrating Prescription Drug Monitoring Program data, compliance guidelines, and risk-mitigation strategies.
- Evaluate the shoulder complex integrating osteopathic structural diagnosis with biomechanical function
- Apply principles of interprofessional care to the management of older adults with common geriatric presentations such as mobility impairment, arthritis, dysphagia, and dementia
- Apply collaborative, team-based approaches to the development of treatment protocols for cardiovascular disease in older adults
- Recognize the core features of Dementia with Lewy Bodies (DLB) and best management approach
- Define ageism and discuss its impact on the health and wellness of older adults
- Learn how to integrate OMM with acupuncture to reduce pain, balance the autonomic nervous system, and improve functional mobility
- Strengthen collaborative approaches to delivering comprehensive, team-based primary care services across diverse practice settings.
- Integrate team-based approaches into the recognition and management of common clinical presentations across outpatient and community care settings
- Promote evidence-based, interprofessional strategies to support adolescent preventive care, screening, and early identification of health concerns.
- Explore emerging diagnostic and point-of-care technologies that improve clinical decision-making, patient outcomes, and workflow efficiency across healthcare teams

TARGET AUDIENCE

This continuing medical education program is designed to meet the educational needs of physicians, osteopathic physicians, nurses including APRNs, physician associates (PAs) and other health care professionals who provide care to patients in a general practice environment.
