

List of Healthcare Service Locations

For regular preventive care, students may choose a physician through the Aetna Student Health Plan, which provides access to primary care practitioners or specialists throughout the State. Students may also choose a Medicaid physician or see physicians at any of our primary care offices listed below. An individual may be self-referred or referred by the Office of Student Health or other departments of the School. Services include diagnostic evaluation and assessment, medication management, referral to appropriate resources, and health management workshops.

The following information is introduced and reinforced to students at first-year orientation and other critical junctures in the curriculum. It is also available to students on the [SOM Health and Wellness Resources website](#).
